Simple operation with 3D auto alignment

Special Features

- **3D auto alignment function**
Up and down, right and left, and forward and backward positioning can be automatically performed only by placing the luminescent spot inside the circle.
- **Soft airflow**
Improved softness of the air flow. Measurement can be done with the soft air feeling even from the first measurement.
- **No measurement range switching necessary**
Smooth and easy measurement is possible without the range switching operation (30/60mmHg) as before.
- **Insufficient eye opening sensor function**
Measurement is not processed if the eye is not opened sufficiently.
- **Easy paper replacement**
Pursued usability and speedy printing.
- **Electrically operated chin rest**
Height of the chin rest can be adjusted with the buttons at hand.
